Each nation may register up to (3) participants in the B-Category. This means each nation can allocate the skaters in the following ways: 2 skaters in one category and 1 skater in the other category, 1 skater in one category and 2 skaters in the other, or all 3 skaters in one category and none in the other. Example: Country A registers 2 Precision Senior Teams and 1 Precision

Senior B-Team.

Each country may register one “reserve” team in only one category of such country’s choice. WSE will decide to invite such reserve team in case participating countries (i) are sending less teams than the allowed number of skaters assigned to them and (ii) the timetable allows for admission of additional teams.

The elements and requirements for the B- Categories follow the World Skate Requirement for the relevant World Skate Category.

In the event that local clubs of one nation have registered more than the allowed maximum per country, the local nation will decide on the nominated skaters per discipline to participate in the Cup of Europe.

Special Rules:

In all (non-Promotional) categories, Skaters/Pairs/Couples placed 1-3 on the respective European or World Championships, in the same year, cannot compete in Cup of Europe.
